Freitag, 11. Mai 2007

- P II. 01 Alexander, M.; Behm, C.; Föllmann, W.; Kuhlmann, J.
Response of primary urothelial cells from individual porcine bladders upon treatment with benzo(a)pyrene
- P II. 02 Belik, R.; Dörrenhaus, A.; Föllmann, W.; Golka, K.
Quantitative study of excretion and in vitro growth of urothelial cells obtained from urine of healthy subjects
- P II. 03 Bernshausen, T.; Haarmann-Stemmann, T.; Bothe, H.; Neumann, B.; Fritsche, E.; Abel, J.
Expression and function of the arylhydrocarbon receptor repressor (AhRR)
- P II. 04 Bhattacharya, K.; Cramer, H.; Geh, S.; Shokouhi, B.; Albrecht, C.; Schins, R.; Rettenmeier, A.W.; Dopp, E.
Ultrafine titanium dioxide particles coated with vanadium pentoxide induce cellular damage and micronucleus formation in V79-cells
- P II. 05 Blaszkevicz, M.; Dannappel, D.; Selinski, S.; Golka, K.
N-Acetyltransferase 2 genotyping
- P II. 06 Blaszkevicz, M.; Golka, K.
N-Acetyltransferase 2 phenotyping (caffeine test)
- P II. 07 Flieger, A.; Golka, K.; Dörrenhaus, A.; Föllmann, W.
Primary cultures of human urothelial cells for genotoxicity testing
- P II. 08 Flieger, A.; Welge, P.; Hack, A.; Müller, A.; Wilhelm, M.; Föllmann, W.
Primary cell cultures of transitional epithelial cells isolated from urinary bladders of Goettingen minipigs
- P II. 09 Föllmann, W.; Birkner, S.
The use of cultured primary bovine colon epithelial cells as a screening model to detect genotoxic effects of heterocyclic aromatic amines in the Comet assay
- P II. 10 Hengstler, J.G.; Brulport, M.; Schormann, W.; Hermes, M.; Bauer, A.; Rudolph, C.; Drasdo, D.; Bockamp, E.
Modelling of liver toxicity and regeneration after intoxication with CCl₄

Freitag, 11. Mai 2007

- P II. 11 Hinkel, A.; Schmidtchen, S.; Palisaar, R.J.; Noldus, J.; Pannek, J.
Identification of bladder cancer patients at risk for recurrence or progression: an immunohistochemical study based on the expression of metallothionein
- P II. 12 Hölzer, J.; Voss, B.; Saida, K.; Hildmann, H.; Wilhelm, M.
A comparative study of chemically induced DNA damage in isolated nasal mucosa cells of humans and rats assessed by the alkaline comet assay
- P II. 13 Lichter, J.; Heckelen, A.; Fischer, K.; Blömeke, B.
Characterisation of N-acetyltransferase activities in monocyte-derived dendritic cells
- P II. 14 Moors, S.; Blaszkewicz, M.; Bolt, H.M.; Degen, G.H.
Biomonitoring for phytoestrogens and bisphenol A in urines from a small german cohort
- P II. 15 Plöttner, S.; Borza, A.; Wolf, A.; Kuhlmann, J.; Föllmann, W.
Interindividual differences of benzo[a]pyrene-induced genotoxic effects in porcine urinary bladder cell cultures derived from different donors
- P II. 16 Rihs, H.P.; Marczyński, B.; Rabstein, S.; Scherenberg, M.; Landt, O.; Brüning, T.
Rapid detection of the *hOGG1* Ser326Cys polymorphism using LightCycler™ technology
- P II. 17 Schmiechen, K.; Flieger, A.; Schreiber, J.; Hallier, E.; Müller, M.
Development of a modern NBC Self Aid Kit for civilian disaster relief forces in Germany
- P II. 18 Tietze, C.; Blömeke, B.
In vitro sensitization assays: Comparison of a monocytic cell line (THP) and primary monocyte derived dendritic cells
- P II. 19 von Recklinghausen, U.; Hartmann, L.M.; Rabieh, S.; Hirner, A.V.; Rettenmeier, A.W.; Dopp, E.
Methylated bismuth compounds but not bismuth citrate and bismuth glutathione induce cyto- and genotoxic effects in human cells *in vitro*
- P II. 20 Zuehlke, S.; Zhang, H.; Guenther, K.; Boehmler, G.; Spitteller, M.
Occurrence and degradation of chiral nonylphenol isomers
